Support Letter

Ltd. "Alūksnes enerģija" is aware of the project proposal "Battle of energy resourcing in district heating (DH BATTLE)" to be submitted by the Institute of Energy Systems and Environment of the Riga Technical University to the Latvian Council of Science on 28 September 2020 within the Fundamental and Applied Research Projects call.

The proposed project "Battle of energy resourcing in district heating (DH BATTLE)" will contribute to the modernization and energy efficiency improvement of district heating by analysing most optimal combination of energy sources for heat generation in different conditions.

Ltd. "Alūksnes enerģija" is familiar with other successful projects from this Institute and know that results from this project will be useful for practical implementation.

As a consequence, Ltd. "Alūksnes enerģija" hereby expresses the support to the "Battle of energy resourcing in district heating (DH BATTLE)" project proposal and will follow up the evolution of the project, in particular will:

- provide the necessary input data for the research;
- contribute to disseminate project results;
- participate to stakeholder activities during the time of the project.

Atbalsta vēstule Letter of support

Gulbenes novada pašvaldība ir informēta par projekta pieteikuma priekšlikumu "Energoresursu cīņa siltumapgādē (DH BATTLE)", kas Rīgas Tehniskās universitātes Enerģētikas sistēmu un vides institūtam jāiesniedz Latvijas Zinātnes padomē 2020. gada 28. septembrī Fundamentālās un lietišķo pētījumu programmas projektu pieteikumu uzsaukumā.

Piedāvātais projekts "Energoresursu cīņa siltumapgādē (DH BATTLE)" veicinās centralizētās siltumapgādes modernizāciju un energoefektivitātes uzlabošanu, radot sinerģiju starp pašvaldību, centralizētās siltumapgādes operatoru, enerģijas ražotājiem un vietējām rūpniecības nozarēm.

Gulbenes pašvaldība pārzina citus šī institūta veiksmīgos projektus un zina, ka šī projekta rezultāti būs noderīgi praktiskai īstenošanai.

Gulbene municipality is aware of the project proposal "Battle of energy resourcing in district heating (DH BATTLE)" to be submitted by the Institute of Energy Systems and Environment of the Riga Technical University to the Latvian Council of Science on 28 September 2020 within the Fundamental and Applied Research Projects call.

The proposed project "Battle of energy resourcing in district heating (DH BATTLE)" will contribute to the modernization and energy efficiency improvement of district heating by creating synergies between the municipality, the district heating operator, energy producers and local industries.

Gulbene municipality is familiar with other successful projects from this Institute and know that results from this project will be useful for practical implementation.

Rezultātā Gulbenes novada pašvaldība pauž atbalstu projekta priekšlikumam “Energoresursu cīņa siltumapgādē (DH BATTLE)” un sekos projekta attīstībai, jo īpaši:

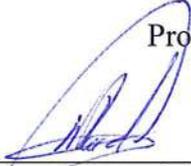

- apmainīties ar projekta rezultātiem dažādās valstīs;
- veicinās projekta rezultātu izplatīšanu;
- projekta laikā piedalīties ieinteresētajām personām paredzētajās aktivitātēs.

As a consequence, Gulbene municipality hereby expresses the support to the “Battle of energy resourcing in district heating (DH BATTLE)” project proposal and will follow up the evolution of the project, in particular will:

- exchange the results of the project in the various national context;
- contribute to disseminate project results;
- participate to stakeholder activities during the time of the project.
